Questions on Pilot Class:

MIOSHA/CET Division

517-322-1809

**For additional seminar dates
& locations, visit our website:**

www.michigan.gov/mioshatraining

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least two weeks in advance, to request necessary accommodations.

This is the second pilot of this class and MIOSHA is seeking your valuable feedback after implementing changes and feedback from the first pilot. **“Continuous Safety & Health Improvement”** was created to look beyond the initial development and implementation of a Safety and Health Management System to the ongoing responsibilities for maintaining and expanding overall continuous improvement. Particular emphasis is given to management commitment and employee involvement.

“Continuous Safety & health Improvement” is a requirement for the MTI Level Two Management Track and credit will be given to students successfully demonstrating competency in this course. Students will also achieve Continuing Education Units (CEUs) that will be tracked in the Macomb Community College/MTI database.

As a pilot, students will only be charged \$55 which includes materials and lunch will be provided. Seating is limited, so please register for this class as soon as possible to assure your seat and take advantage of this opportunity to provide valuable input for this program.

The meeting site and parking is accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517.322.1809. The Department of Energy, Labor & Economic Growth is an equal opportunity employer/program. www.michigan.gov/dleg
